

~~SECRET~~

3 October 1958

SERVICES DIVISION
MONTHLY REPORT FOR
SEPTEMBER 1958

1. Important Developments in the Division Program

25X1C a. During the month S/COM submitted five studies for presentation at a [REDACTED] J.S. communications conference, now tentatively scheduled for [REDACTED] in January 1959.

25X1C8a

b. S/CST advised the U.S. Commissioner of Reclamation concerning itineraries in the USSR and USA for Soviet and American hydroelectric power exchange groups. This advice figured in a conference held in Washington, D. C., 30 September - 1 October at which it was agreed that the U.S. could select specific installations irrespective of location in the USSR for inclusion in the itinerary of the American group.

c. S/TR has evaluated for the Department of State six technical pamphlets submitted by the USSR delegation to the ECE Working Group on Technical Railway Problems. It found the pamphlets to have neither intelligence significance nor technical data not easily obtainable in other Soviet literature.

d. S/TR continues to render heavy support on the Taiwan Strait problem to some extent because of faulty reporting from the field.

e. S/TD has given support daily to the ACEP Operating Committee's review of the U.S. security export control list. The Committee's recommendations on the extent of control to be exercised over the more than 300 items composing the list were presented to the Secretary of Commerce for his decision on 2 October.

25X1A9a f. S/TF began a series of discussions with [REDACTED] and members of the Department of State on the 1958 Soviet Foreign Trade Handbook and other aspects of Soviet foreign trade. Also, Mrs. [REDACTED] visited the National Bureau of Economic Research, New York, to discuss a proposed external research project on Bloc trade with the West with [REDACTED].

25X1C8a

25X1A5a1

2. Problems

The Division continues to experience a shortage of clerical personnel.
